

SUSTAINABILITY & CLIMATE CONSULTING

Our Sustainability & Climate Consulting practice provides end-to-end services in the areas of climate risk and adaptation, decarbonization, carbon markets, corporate sustainability and ESG.

Given the growing importance of disclosures, significant data integrity requirements, and varied and disaggregated data sources, enabling the sustainability journey through technology is essential. With a unique blend of strong sustainability and climate domain capabilities, combined with AI expertise and technology assets, we are well-placed to assist organizations in achieving their long-term sustainability goals.

We endeavor to guide sustainable transformation in business and society at large, with the vision to shape a more balanced planet for future generations.

Our Services

CLIMATE ACTION

- Greenhouse gas accounting (GHG Protocol), financed emissions (PCAF), and science-based target setting-SBTi
- Internal carbon pricing, decarbonization / net-zero strategy and implementation roadmap
- Hotspot analysis and value-chain decarbonization

- ESG data analytics - Monitor organizational sustainability, social impact, and governance compliance

TRAINING AND THOUGHT LEADERSHIP

Building sustainability ambassadors at every level - from board of directors and KMPs to mid and junior executives and students, through targeted, impactful training programs.

Why Us

1 Our deep expertise

Anu Chaudhary, our Sustainability & Climate Consulting leader, has over 25 years of experience partnering with diverse businesses and government sector entities across the globe on their sustainability and climate change journey. Anu is supported by a strong set of regional leaders each having 20+ years of experience partnering with diverse businesses and other organizations across the globe on their sustainability and climate change journeys. Our global team is spread across the USA, India, and the Middle East with diverse experience across industry and the consulting world.

2 Deep and diverse talent pool and globally integrated delivery model

Being a company specializing in sustainability and climate action as a core solution, we are a hotbed for high-quality talent in this area. Our talent pool is fully integrated, collaborating seamlessly across our key markets of the USA, India, and the Middle East. Leveraging our offshore talent pool, combined with substantial onsite presence, we deliver significant cost efficiencies while maintaining timely, high quality delivery.

3 Integrating consulting and technology

Our technology-driven approach empowers us to provide comprehensive end-to-end implementation assistance using our proprietary technology product, ESG UniVerse, or other ESG technology platforms. This allows us to not only conceptualize effective solutions but also seamlessly integrate and implement them, ensuring a holistic and streamlined approach to meet your organizational needs.

4 Bringing accounting rigor to sustainability reporting

We integrate our knowledge and experience in the sustainability domain with equally strong capabilities in the areas of financial reporting, internal controls, auditing standards, and regulatory reporting.

5 Agility and responsiveness

Our team embodies the essence of agility and responsiveness, fostering a dynamic environment where adaptability and quick responses are integral to our operations. We are not restricted by auditor independence conflicts, which further creates a frictionless environment to serve our clients. Our agility and responsiveness is enhanced by a high degree of partner/director involvement on projects.

CHANGE THE WAY CONSULTING IS DONE
